21 October 2002 (21.10.2002)

Applicant

CHRYSALIS TECHNOLOGIES INCOPORATED

- 1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
- 2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
- 3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

CHRYSALIS TECHNOLOGIES INCO	PORATED							
This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36.								
2. This REPORT consists of a total of 2 sheets, including this cover sheet.								
This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT).								
These annexes consist of	a total of sheets.							
3. This report contains indications relating to the following items:								
I Basis of the rep	port							
II Priority								
III Non-establishm	shment of report with regard to novelty, inventive step and industrial applicability							
IV Lack of unity of	of invention							
Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement								
VI Certain documents cited								
VII Certain defects in the international application								
VIII Certain observations on the international application

I.	Basi	s of the report					
1.	With	regard to the elements of the international application:*					
	\boxtimes	the international application as originally filed.					
	\boxtimes	the description:					
		pages 1-10 as originally filed					
		pages NONE, filed with the demand pages NONE, filed with the letter of					
		the claims: pages 11-13 , as originally filed					
		pages NONE, as amended (together with any statement) under Article 19					
		pages NONE, filed with the demand					
		pages NONE, filed with the letter of					
	\boxtimes	the drawings:					
		pages 1 , as originally filed					
		pages NONE, filed with the demand pages NONE, filed with the letter of					
		the sequence listing part of the description:					
		pages NONE, as originally filed					
		pages NONE , filed with the demand					
		pages NONE, filed with the letter of					
2.	Wit	h regard to the language, all the elements marked above were available or furnished to this Authority in the					
	lang The	uage in which the international application was filed, unless otherwise indicated under this item. se elements were available or furnished to this Authority in the following language which is:					
		the language of a translation furnished for the purposes of international search (under Rule23.1(b)).					
	H	the language of publication of the international application (under Rule 48.3(b)).					
	H	the language of the translation furnished for the purposes of international preliminary examination (under Rules					
		55.2 and/or 55.3).					
3.	Wit	h regard to any nucleotide and/or amino acid sequence disclosed in the international application, the					
	inte	rnational preliminary examination was carried out on the basis of the sequence listing:					
		contained in the international application in printed form.					
		filed together with the international application in computer readable form.					
		furnished subsequently to this Authority in written form.					
		furnished subsequently to this Authority in computer readable form.					
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the					
		international application as filed has been furnished.					
		The statement that the information recorded in computer readable form is identical to the written sequence listing					
		has been furnished.					
4	. 🗀	The amendments have resulted in the cancellation of					
ŀ		the description, pages NONE					
		the claims, Nos. NONE					
		the drawings, sheets/fig NONE					
_		This report has been established as if (some of) the amendments had not been made, since they have been considered to go					
5	· L	beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**					
*	* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to						
l ti	his rer	port as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.					
	and the second s
